EDUCATION

Baderia Global Institute of Engineering & Management

Bachelor of Technology in Computer Science

Jabalpur

July 2022 - July 2026

Aditya Convent Senior Secondary School

Class XII

Jabalpur

July 2021 - July 2022

EXPERIENCE

Freelanced — Full-Stack Web Developer

Aug 2024 - Sept 2024

Creative Interior India

- Tech Stack: React.js, Next.js, CSS, Firebase
- Achieved 90+ Google Lighthouse scores in performance, accessibility, and SEO through optimized architecture and clean code.
- Attracted 1,000+ unique visitors within the first 3 months of launch through SEO and social sharing.
- Integrated Firebase for scalable backend services including real-time database and secure hosting, ensuring 99.9% uptime.
- Live Link: <https://creativeconstruction.in/>

Internship: Front-End Web Developer

Mar 2023 - May 2023

DAO Info-Tech

- Contributed to the development and launch of 6+ business websites, increasing client visibility and engagement by up to 40%.
- Gained hands-on experience with HTML, CSS, JavaScript, and modern frameworks (e.g., React.js), reducing development time by 25% through reusable components.
- Assisted in debugging and performance optimization, leading to 30% faster page load speeds and improved user retention.
- Ensured mobile responsiveness across 20+ device breakpoints, improving cross-platform accessibility scores by 15%.

PROJECTS

StreamTweet | *React, Axios, Express, Mongoose, Multer, JWT and Bcrypt*

May 2025 – May 2025

- Developed a full-stack web application that integrates core functionalities of YouTube and Twitter using React.js, Node.js, Express, and MongoDB.
- Designed and implemented video upload, streaming, commenting, and like features to simulate YouTube's user experience.
- Built Twitter-style post creation, feed rendering, and user interaction modules including retweets, likes, share and replies.
- Managed user authentication, session handling, and role-based access control with JWT and bcrypt for secure login and operations.

LiveConnect | *React, Axios, Socket.io, Express, Mongoose*

June 2025 – June 2025

- Built a real-time chat application using the MERN stack and Socket.io for bidirectional communication.
- Designed and implemented over 10 RESTful API routes for message handling, user management, and chat rooms.
- Developed the frontend using React.js and integrated multiple third-party libraries including Axios and React Router.
- Used MongoDB to store user profiles and chat logs with efficient schema design and querying.

TECHNICAL SKILLS

Languages: JavaScript, HTML/CSS, C++, SQL, Python

Frameworks: React.js, Node.js, Express.js, Tailwind CSS

Libraries: MongoDB, THREE.js

Developer Tools: Git, RESTful APIs, User Testing Tools
